PRONTO POLISH PARQUET

code SO9070

TECHNICAL DATA (*referring to a room temperature of +20°C and to a 65% of relative humidity*)

Appearance	milky liquid
Viscosity	13 " F4
pH	7-8
Specific weight	1,00
Average yield	1 liter for 15-20 sq.m.

DESCRIPTION

Self-shining polish, ready to use, quick and easy to be applied, for the maintenance and protection of varnished parquet. The composition of waxes, the highly bio-degradable detergents, the neutral pH and the agreeable scent make the product suitable for domestic as well as for professional use. As soon as the application is dry, after about 15 minutes, the parquet will appear revived in its original beauty. No shining is necessary.

PACKAGING

1-litre and 5-litre plastic cans.

DIRECTIONS FOR USE

Clean the floor thoroughly from dust. Pour the sufficient quantity of product on the parquet and spread it as evenly as possible with a mop or floor cloth; every now and then, if necessary, rinse the cloth or mop in clear water to remove dirt, then wring it out and go on applying.

ADVICE

The product is *not* suitable for unsealed parquet.

The detergents contained in the product are over 90% bio-degradable.

Beware of freezing!

If the original unopened container is stored in a cool, dry place away from direct sun light, the product will keep for at least 12 months.
